Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at http://about.jstor.org/participate-jstor/individuals/early-journal-content.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

PREVALENCE OF DISEASE.

No health department, State or local, can effectively prevent or control disease without knowledge of when, where, and under what conditions cases are occurring.

UNITED STATES.

CURRENT STATE SUMMARIES.

These reports are preliminary, and the figures are subject to change when later returns are received by the State health officers.

Reports for Week Ended October 21, 1922.

SUMMARY OF CASES REPORTED MONTHLY BY STATES.

The following summary of monthly State reports is published weekly and covers only those States from which reports are received during the current week:

State.	Cerebrospinal meningitis.	Diphtheria.	Influenza.	Malaria.	Measles.	Pellagra.	Poliomyelitis.	Scarlet fever.	Smallpox.	Typhoid fever.
September, 1922.										
Arkansas	1	61	9	617	7	25	.....	26	3	80
Minnesota	4	370	1	.....	17	.....	10	404	37	57
New York	21	916	54	78	259	.....	181	643	54	309
Rhode Island	1	62	1	.....	23	.....	14	20	.....	13
West Virginia	2	281	27	.....	19	.....	1	201	14	204

RECIPROCAL NOTIFICATION.

Connecticut and Minnesota—September, 1922.

Cases of communicable diseases referred during September, 1922, to other State health departments by departments of health of the States of Connecticut and Minnesota.

CONNECTICUT.

Disease and locality of notification.	Referred to health authority of—	Why referred.
Paratyphoid fever:		
Stamford	State Department of Health, Albany, N. Y.	Patient camped 3 weeks prior to onset at Huntington, L. I.
Poliomyelitis:		
Redding	State Department of Public Health, Boston, Mass.	Patient had spent summer at camp at Lovell, Me. Taken ill within 2 weeks after arrival home.
Scarlet fever:		
Mystic	State Board of Health, Providence, R. I.	Onset of disease 10 days after attending fair at Ashaway, R. I. Sister of case, after exposure, went to Ashaway, R. I.
Hartford	State Board of Health, Trenton, N. J.	Case came to Hartford Sept. 1, being taken ill 5 days later. Home was in Perth Amboy, N. J.
Tuberculosis (pulmonary):		
New Haven	.....do.....	Active case left New Haven, going to Hackensack, N. J.
Norwalk	.....do.....	Case recently came from Newark, N. J.
Brooklyn	State Board of Health, Concord, N. H.	Patient came to Brooklyn in May from Tilton, N. H.
New Britain	State Department of Public Health, Boston, Mass.	Active case left New Britain, Conn., going to Brockton, Mass.

Cases of communicable diseases referred during September, 1922, to other State health departments by departments of health of the States of Connecticut and Minnesota—Con.

CONNECTICUT—Continued.

Disease and locality of notification.	Referred to health authority of—	Why referred.
Tuberculosis (pulmonary)—Continued.		
New Britain	State Board of Health, Madison, Wis.	Case with active lesion left New Britain, Conn., going to Laona, Wis.
New Haven	State Board of Health, Trenton, N. J.	War veteran was released from hospital at New Haven to go to Plainfield, N. J.
Madison	State Board of Health, Harrisburg, Pa.	Case diagnosed while in Madison, Conn. Home is in Scranton, Pa.
Do	State Department of Health, Albany, N. Y.	Case was taken to Saranac, N. Y.
Norwich	do	Patient left sanitarium at Norwich, Conn., going to New York City.
Preston	do	Active case left Preston, Conn., going to Brooklyn, N. Y.
Do	do	Case went to New York City.
Do	do	Case went from State hospital to New York City.
Typhoid fever:		
Danbury	do	Typhoid case was on watershed of Stamford, Conn., water supply in town of Lewisboro, N. Y.
Stamford	do	Patient had visited in Port Chester, N. Y., 2 weeks prior to onset.
Greenwich	do	Typhoid case from Port Chester, N. Y., was admitted to Greenwich Hospital for treatment.
Stamford	do	Case had visited for 3 weeks prior to onset at Glencove, L. I.
Do	do	Patient living in New York City was admitted to Stamford Sanitarium.
Westport	do	Case had visited prior to onset at Shelton Island, N. Y.

MINNESOTA.

Diphtheria:		
Minneapolis, Hennepin County.	Waterloo Township, Allamakee County, Iowa.	Nose and throat cultures sent in by Dr. J. W. Helland, Spring Grove, Minn., showed diphtheria bacilli Sept. 24, 1922.
Tuberculosis:		
Minneapolis, Hennepin County.	Chicago, Cook County, Ill	Registered case of pulmonary tuberculosis moved from home in Minneapolis to Chicago.
Do	Fargo, Cass County, N. Dak.; Livingston, Park County, Mont.; Arlington, Kingsbury County, S. Dak.; Waubay, Day County, S. Dak.	4 cases reported by Minneapolis Health Department on August list of tuberculosis cases. Stage of disease no given.
Do	White Fish, Flathead County, Mont.	Moved to White Fish, Mont.
Mayo Clinic, Rochester, Olmstead County.	Spencer, McCook County, S. Dak.; Gay, Keweenaw County, Mich.; Fort Wayne, Allen County, Ind.; Amarillo, Potter County, Tex.; Freeman, Turner County, S. Dak.; Ralston, Carroll County, Iowa; Omaha, Douglas County, Nebr.; El Paso, El Paso County, Tex.; Houston, Harris County, Tex.; Lovilia, Monroe County, Iowa; Cobden, Union County, Ill.; Brandt, Deuel County, S. Dak.; Cottonwood, Yavapai County, Ariz.; Wolf Point, Roosevelt County, Mont.; Rock Spring, Sweetwater County, Wyo.; Eldridge, Scott County, Iowa; Oklahoma, Oklahoma County, Okla.; Muskogee, Muskogee County, Okla.; Sininawa, Grant County, Wis.; Tomah, Monroe County, Wis.; Sioux Rapids, Buena Vista County, Iowa.	10 advanced cases, 8 moderately advanced cases, 1 incipient case, 1 apparently arrested case, 1 case stage of disease not given.

Cases of communicable diseases referred during September, 1922, to other State health departments by departments of health of the States of Connecticut and Minnesota—Con.

MINNESOTA—Continued.

Disease and locality of notification.	Referred to health authority of—	Why referred.
Tuberculosis—Continued.		
U. S. Veterans' Hospital No. 65.	Chinook, Blaine Co., Mont.	Arrested case discharged Aug. 7, 1922.
	Leeds, Iowa	Active case left hospital against medical advice Aug. 8, 1922.
	Northwood, Grand Forks County, N. Dak.	Left hospital Aug. 25, 1922, stage undetermined.
	Prescott, Yavapai County, Ariz.	Active case transferred.
	Waukesha, Waukesha County, Wis.	2 inactive cases transferred.
	Hetland, Kingsbury County, S. Dak.	Active case discharged Aug. 17, 1922.
	Rapid City, Pennington County, S. Dak.	Inactive case discharged Aug. 10 1922.
	Huron, Beadle County, S. Dak.	Active case discharged Aug. 9, 1922.
Pokegama Sanitarium, Pine County.	Hudson, St. Croix County, Wis.	Released from sanitarium Aug. 29, 1922, to go home. Stage of disease not given.
Do	Jamestown, Stutsman County, N. Dak.	Incipient case discharged from sanitarium to go home August, 1922.

CITY REPORTS FOR WEEK ENDED OCTOBER 7, 1922—Continued.

POLIOMYELITIS (INFANTILE PARALYSIS).

The column headed "Median for previous years" gives the median number of cases reported during the corresponding weeks of the years 1915 to 1921, inclusive. In instances in which data for the full seven years are incomplete, the median is that for the number of years for which information is available.
